

What's it REALLY like to work in IT / Engineering?

Let's start with a few questions...

Question:
So what do you do?

Question:
So what do you do?

Me: I work in IT,
actually, I'm an engineer

Ahh great – you can fix my printer!

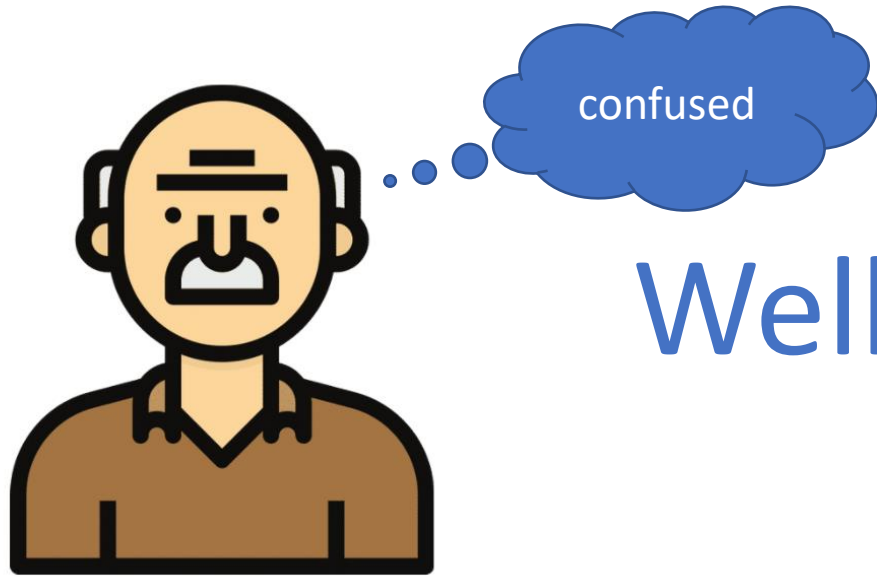

Ahh great – you can fix my printer!

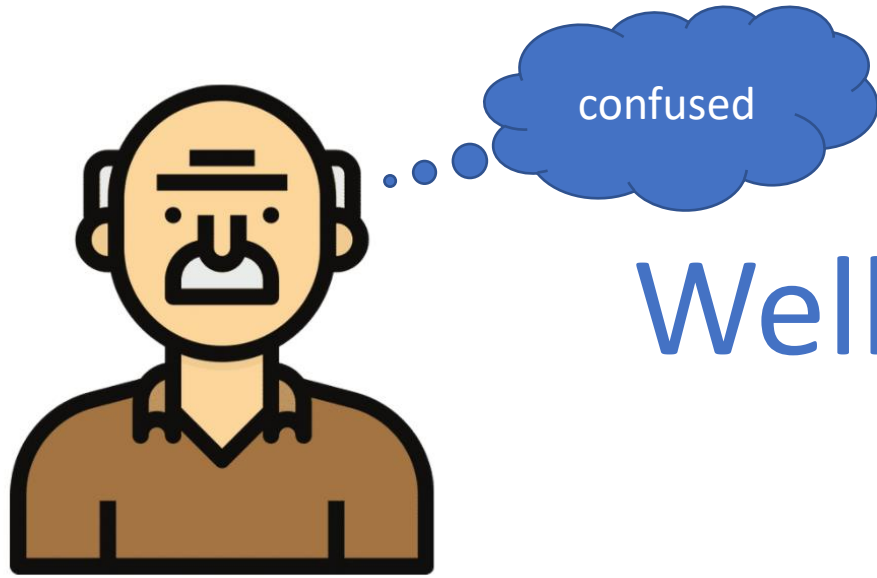

Me: Err no.

Well what do you do then?

Well what do you do then?

Me: I work in a large company probably like you did. It's my job to drive large change projects.

Reality Check

There are **100s** of different jobs in IT and Engineering.

And nearly all do not involve fixing a printer!
